## TECHNICAL ANALYSIS CHART

## FOLLOW-THROUGH DAYS ANALYSIS: 0 Recent Signals

**Follow-Through Days** indicate institutional buying and potential market trend continuation. They require significant price advance with above-average volume.

No recent Follow-Through Days detected.

DISTRIBUTION DAYS ANALYSIS: 7 Recent Signals

**Distribution Days** indicate institutional selling and potential market weakness. They show price decline with above-average volume, suggesting professional selling.

#	Date	Price Change	Volume Ratio	Severity	Close Price	Days Ago
1	2025-09-02	-0.84%	1.47x	Moderate	\$565.62	3
2	2025-08-29	-1.16%	1.25x	Mild	\$570.40	7
3	2025-08-20	-0.59%	1.71x	Moderate	\$565.90	16
4	2025-08-19	-1.36%	1.22x	Mild	\$569.28	17
5	2025-08-01	-1.97%	1.49x	Severe	\$553.88	35
6	2025-07-31	-0.53%	1.41x	Moderate	\$565.01	36
7	2025-07-01	-0.84%	1.21x	Mild	\$546.99	66

MARKET ASSESSMENT & O'NEIL METHODOLOGY

■■ NEUTRAL MARKET OUTLOOK

- **Market Direction:** Mixed signals - no clear institutional bias
- **Recommended Action:** Maintain current allocation, monitor closely
- **Risk Level:** Moderate

William J. O'Neil Key Principles:

- **Follow-Through Days:** Confirm new uptrends and institutional buying
- **Distribution Days:** Signal potential market tops and selling pressure
- **Volume Analysis:** Price without volume is meaningless
- **Cluster Analysis:** Multiple signals in short timeframe increase reliability

**Current Market Metrics:**

- Recent FTD Count: 0 - No recent bullish confirmation
- Recent DD Count: 2 - Some distribution pressure
- FTD/DD Ratio: 0.00 - Strong bearish dominance

## COMBINED MARKET ASSESSMENT

■ **Active Components:** Chillax MAs, MA Cycles, FTD/DD Analysis

■ **Market Pulse Methodology:**

- **Chillax MAs:** Trend confirmation through multiple timeframe moving average analysis
- **MA Cycles:** Bull/bear cycle identification and statistical pattern analysis
- **FTD/DD:** Institutional buying/selling pressure using O'Neil methodology

#### ■ **Analysis Recommendations:**

- Review each component for comprehensive market understanding
- Cross-validate signals across multiple indicators
- Consider timeframe consistency in decision making
- Monitor signal clustering for increased reliability

#### ■ **Technical Notes:**

- All charts use consistent data sources and timeframes
- Individual component reports available for detailed analysis
- Signal parameters follow established market timing methodologies
