TECHNICAL ANALYSIS CHART

## FOLLOW-THROUGH DAYS ANALYSIS: 0 Recent Signals

**Follow-Through Days** indicate institutional buying and potential market trend continuation. They require significant price advance with above-average volume.

No recent Follow-Through Days detected.

DISTRIBUTION DAYS ANALYSIS: 5 Recent Signals

**Distribution Days** indicate institutional selling and potential market weakness. They show price decline with above-average volume, suggesting professional selling.

#	Date	Price Change	Volume Ratio	Severity	Close Price	Days Ago
1	2025-11-18	-0.84%	1.45x	Moderate	\$660.08	1
2	2025-11-13	-1.66%	1.34x	Moderate	\$672.04	6
3	2025-10-16	-0.68%	1.51x	Moderate	\$660.64	34
4	2025-10-10	-2.70%	2.19x	Severe	\$653.02	40
5	2025-09-25	-0.46%	1.26x	Mild	\$658.05	55

MARKET ASSESSMENT & O'NEIL METHODOLOGY

■■ NEUTRAL MARKET OUTLOOK

- **Market Direction:** Mixed signals - no clear institutional bias
- **Recommended Action:** Maintain current allocation, monitor closely
- **Risk Level:** Moderate

William J. O'Neil Key Principles:

- **Follow-Through Days:** Confirm new uptrends and institutional buying
- **Distribution Days:** Signal potential market tops and selling pressure
- **Volume Analysis:** Price without volume is meaningless
- **Cluster Analysis:** Multiple signals in short timeframe increase reliability

Current Market Metrics:

- Recent FTD Count: 0 - No recent bullish confirmation

- Recent DD Count: 0 - No significant distribution
- FTD/DD Ratio: 0.00 - Strong bearish dominance

## COMBINED MARKET ASSESSMENT

■ **Active Components:** Chillax MAs, MA Cycles, FTD/DD Analysis

■ **Market Pulse Methodology:**

- **Chillax MAs:** Trend confirmation through multiple timeframe moving average analysis
- **MA Cycles:** Bull/bear cycle identification and statistical pattern analysis
- **FTD/DD:** Institutional buying/selling pressure using O'Neil methodology

#### ■ **Analysis Recommendations:**

- Review each component for comprehensive market understanding
- Cross-validate signals across multiple indicators
- Consider timeframe consistency in decision making
- Monitor signal clustering for increased reliability

#### ■ **Technical Notes:**

- All charts use consistent data sources and timeframes
- Individual component reports available for detailed analysis
- Signal parameters follow established market timing methodologies
