MARKET ASSESSMENT & O'NEIL METHODOLOGY

■■ NEUTRAL MARKET OUTLOOK

- **Market Direction:** Mixed signals - no clear institutional bias
- **Recommended Action:** Maintain current allocation, monitor closely
- **Risk Level:** Moderate

William J. O'Neil Key Principles:

- **Follow-Through Days:** Confirm new uptrends and institutional buying
- **Distribution Days:** Signal potential market tops and selling pressure
- **Volume Analysis:** Price without volume is meaningless
- **Cluster Analysis:** Multiple signals in short timeframe increase reliability

Current Market Metrics:

- Recent FTD Count: 0 - No recent bullish confirmation

- Recent DD Count: 0 - No significant distribution
- FTD/DD Ratio: 0.00 - Strong bearish dominance
