- Neutral: 3 days
- Weak Signal (Bearish): 1 days
- Weak Signal (Bullish): 1 days

Market Breadth Thresholds

These thresholds define when bull or bear market breadth signals are triggered.

Threshold Name	Default Value	Signal Type	Condition & Effect
market_breadth_strong_ma_breadth_threshold	80	Breadth Thrust (Bullish)	Overall breadth score above this triggers a bullish thrust
market_breadth_weak_ma_breadth_threshold	20	Breadth Deterioration (Bearish)	Overall breadth score below this triggers bearish signal
market_breadth_daily_252day_new_highs_threshold	100	New Highs Expansion (Bullish)	Net 52-week new highs above threshold triggers bullish signal
market_breadth_strong_ad_ratio_threshold	2	Advance/Decline Thrust (Bullish)	Advance/Decline ratio above threshold triggers bullish thrust

Signal Strength Classification

Classification based on counts of bullish/bearish indicators and net scores.

Signal Strength	Criteria
Strong Bullish	≥ 3 bullish signals with net score ≥ 2
Moderate Bullish	≥ 2 bullish signals with net score ≥ 1
Weak Signal (Bullish)	Any bullish signals but low net score
Strong Bearish	≥ 3 bearish signals with net score ≤ -2

Moderate Bearish	≥ 2 bearish signals with net score ≤ -1
Weak Signal (Bearish)	Any bearish signals but low net score
Neutral	No significant signals
