

# COMPREHENSIVE MARKET PULSE ANALYSIS (QQQ)

Chillax MAs • MA Cycles • Follow-Through Days & Distribution Days

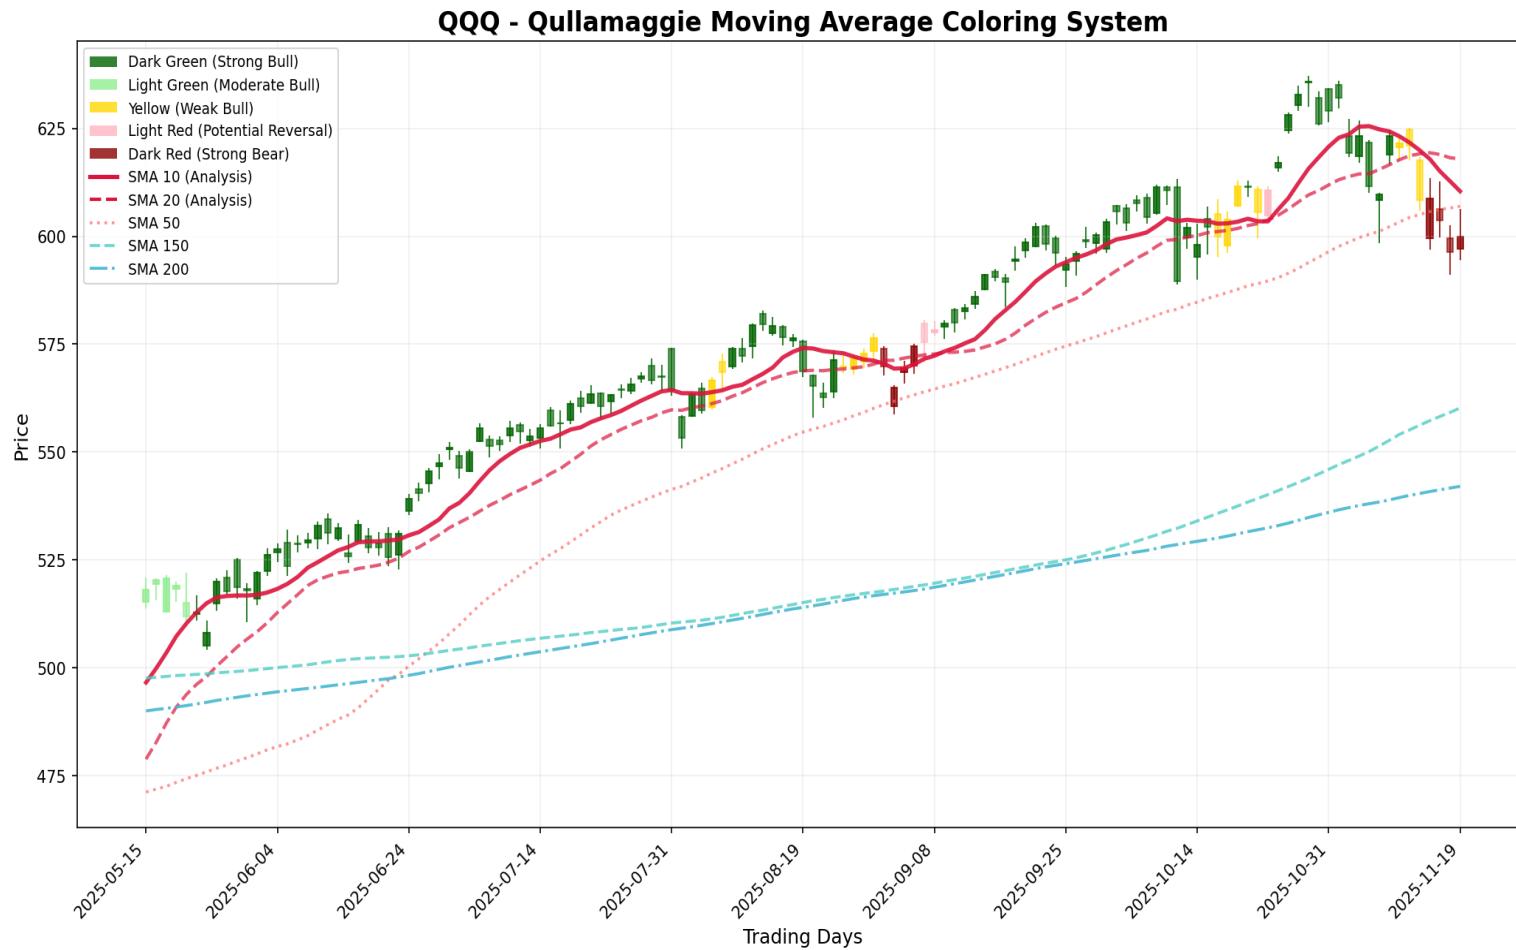

Daily Analysis • As of 2025-11-19

## EXECUTIVE SUMMARY

Component	Status	Analysis Available
Chillax Moving Averages	■ Active	Moving Average Signals & Display SMAs
MA Cycles Analysis	■ Active	Bull/Bear Cycle Analysis & Statistics
FTD/DD Analysis	■ Active	O'Neil Follow-Through & Distribution Days

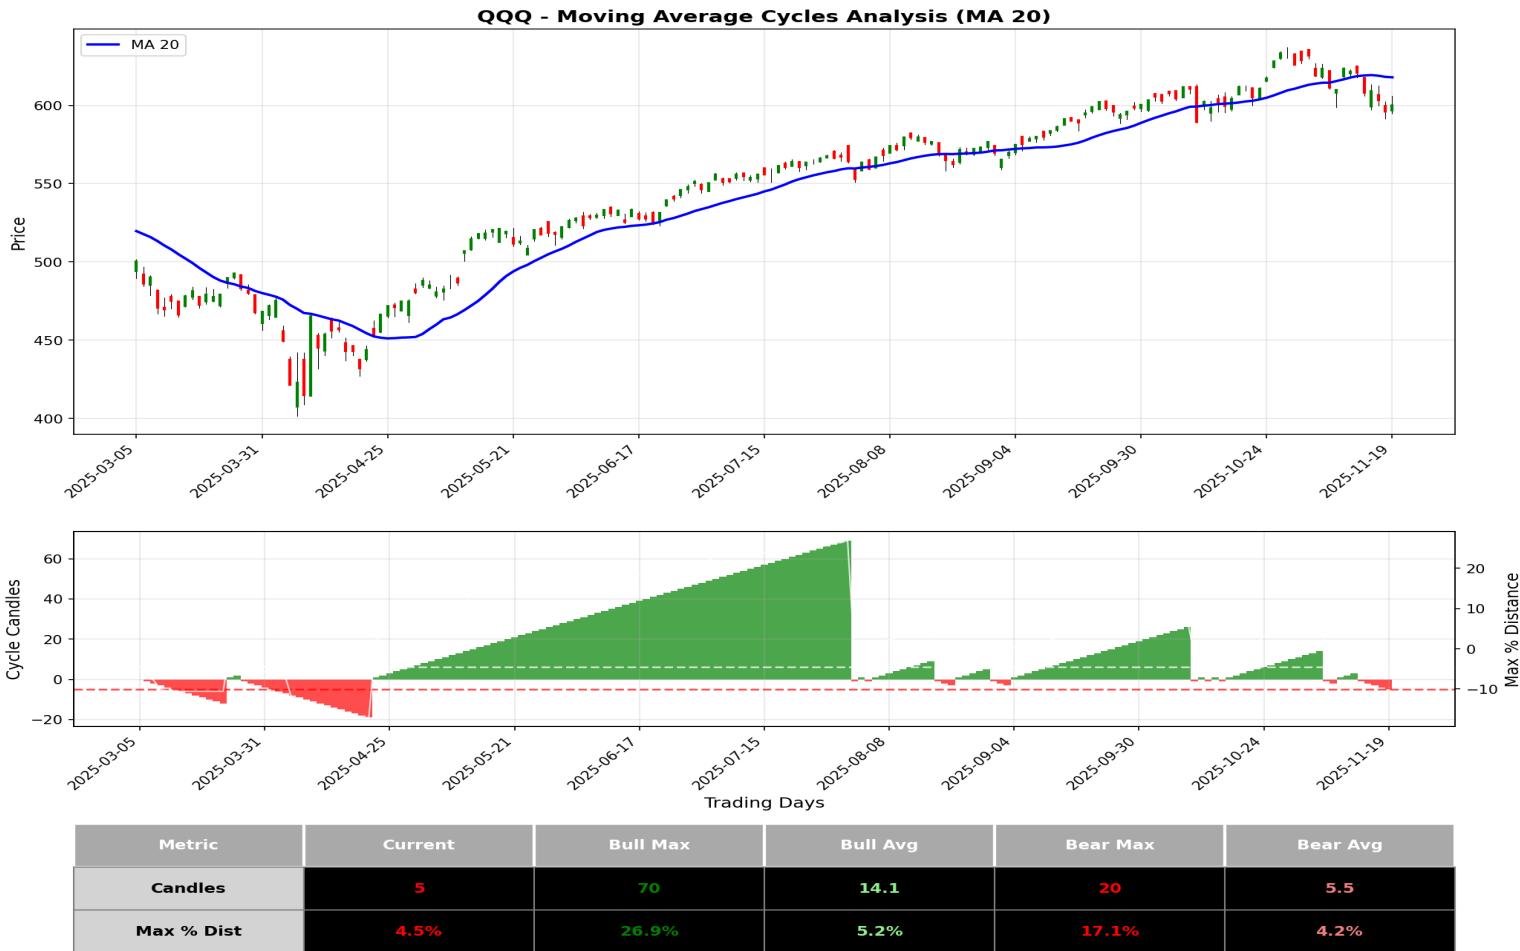

## CHILLAX MOVING AVERAGES ANALYSIS

**Chillax Moving Averages** provide trend confirmation through multiple SMA analysis. The system evaluates analysis SMAs for signal generation and display SMAs for visual confirmation.

## MOVING AVERAGE CYCLES ANALYSIS

**MA Cycles Analysis** tracks price movement relative to key moving averages, identifying bull and bear market cycles with statistical analysis of cycle lengths and patterns.

## FOLLOW-THROUGH DAYS & DISTRIBUTION DAYS ANALYSIS

## FOLLOW-THROUGH DAYS & DISTRIBUTION DAYS ANALYSIS (QQQ)

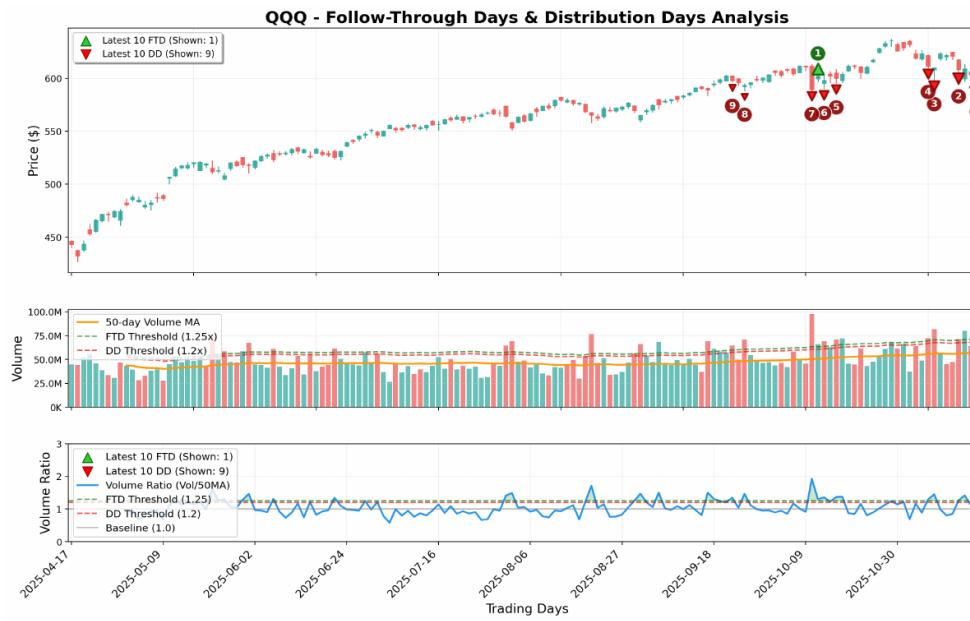

William J. O'Neil Market Timing Methodology

As of Close 20251119

Metric	Value	Interpretation
Market State	Neutral	Mixed conditions - No clear trend direction
Confidence Level	Low	Weak signal reliability - Mixed signals
Recent FTDs	0 (last 25 days)	No recent bullish confirmation
Recent DDs	0 (last 25 days)	No significant distribution
FTD/DD Ratio	0.00	Strong bearish dominance
Signal Strength	Neutral	DD (2025-11-18)

### TECHNICAL ANALYSIS CHART

## FOLLOW-THROUGH DAYS ANALYSIS: 1 Recent Signals

**Follow-Through Days** indicate institutional buying and potential market trend continuation. They require significant price advance with above-average volume.

#	Date	Price Change	Volume Ratio	Strength	Close Price	Days Ago
---	------	--------------	--------------	----------	-------------	----------

1	2025-10-13	2.12%	1.30x	Weak	\$602.01	37
---	------------	-------	-------	------	----------	----

## DISTRIBUTION DAYS ANALYSIS: 9 Recent Signals

**Distribution Days** indicate institutional selling and potential market weakness. They show price decline with above-average volume, suggesting professional selling.

#	Date	Price Change	Volume Ratio	Severity	Close Price	Days Ago
1	2025-11-18	-1.22%	1.45x	Severe	\$596.31	1
2	2025-11-13	-2.04%	1.27x	Mild	\$608.40	6
3	2025-11-07	-0.32%	1.45x	Mild	\$609.74	12
4	2025-11-06	-1.86%	1.30x	Mild	\$611.67	13
5	2025-10-16	-0.37%	1.37x	Mild	\$599.99	34
6	2025-10-14	-0.67%	1.36x	Moderate	\$598.00	36
7	2025-10-10	-3.47%	1.93x	Severe	\$589.50	40
8	2025-09-25	-0.43%	1.47x	Mild	\$593.53	55
9	2025-09-23	-0.66%	1.35x	Moderate	\$598.20	57

## MARKET ASSESSMENT & O'NEIL METHODOLOGY

### ■■ NEUTRAL MARKET OUTLOOK

- **Market Direction:** Mixed signals - no clear institutional bias
- **Recommended Action:** Maintain current allocation, monitor closely
- **Risk Level:** Moderate

### William J. O'Neil Key Principles:

- **Follow-Through Days:** Confirm new uptrends and institutional buying

- **Distribution Days:** Signal potential market tops and selling pressure
- **Volume Analysis:** Price without volume is meaningless
- **Cluster Analysis:** Multiple signals in short timeframe increase reliability

**Current Market Metrics:**

- Recent FTD Count: 0 - No recent bullish confirmation
- Recent DD Count: 0 - No significant distribution
- FTD/DD Ratio: 0.00 - Strong bearish dominance

## COMBINED MARKET ASSESSMENT

■ **Active Components:** Chillax MAs, MA Cycles, FTD/DD Analysis

■ **Market Pulse Methodology:**

- **Chillax MAs:** Trend confirmation through multiple timeframe moving average analysis
- **MA Cycles:** Bull/bear cycle identification and statistical pattern analysis
- **FTD/DD:** Institutional buying/selling pressure using O'Neil methodology

### ■ Analysis Recommendations:

- Review each component for comprehensive market understanding
- Cross-validate signals across multiple indicators
- Consider timeframe consistency in decision making
- Monitor signal clustering for increased reliability

### ■ Technical Notes:

- All charts use consistent data sources and timeframes
- Individual component reports available for detailed analysis
- Signal parameters follow established market timing methodologies
