MA Cycles Analysis	■ Active	Bull/Bear Cycle Analysis & Statistics
FTD/DD Analysis	■■ Not Available	N/A

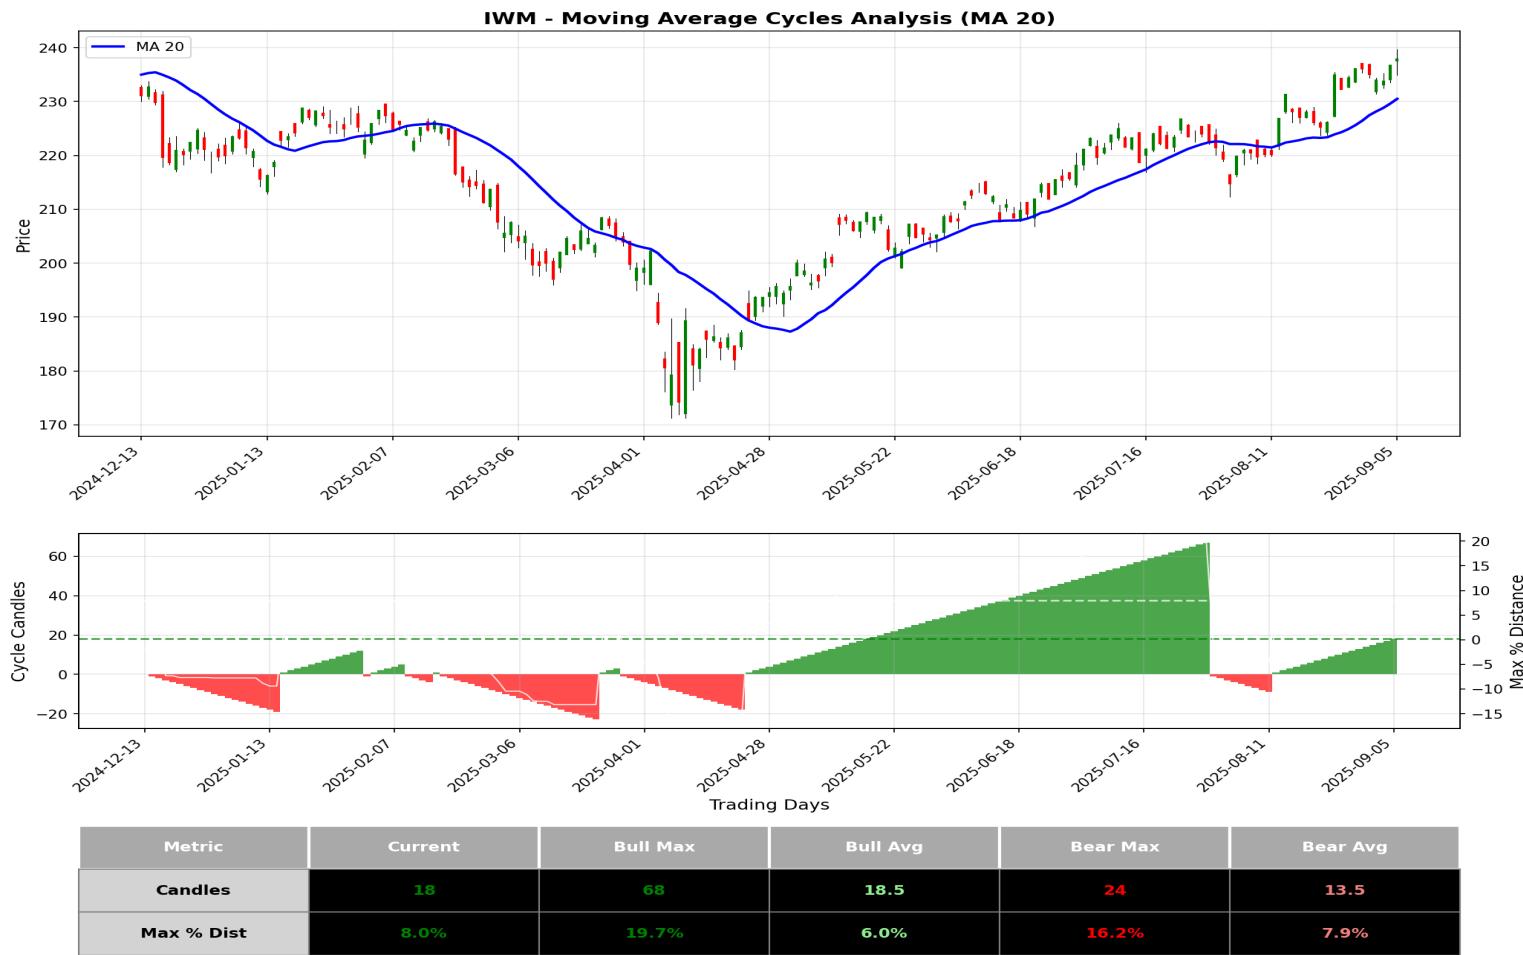

CHILLAX MOVING AVERAGES ANALYSIS

Chillax Moving Averages provide trend confirmation through multiple SMA analysis. The system evaluates analysis SMAs for signal generation and display SMAs for visual confirmation.

MOVING AVERAGE CYCLES ANALYSIS

MA Cycles Analysis tracks price movement relative to key moving averages, identifying bull and bear market cycles with statistical analysis of cycle lengths and patterns.

COMBINED MARKET ASSESSMENT

■ Active Components: Chillax MAs, MA Cycles

■ Market Pulse Methodology:

- **Chillax MAs:** Trend confirmation through multiple timeframe moving average analysis
- **MA Cycles:** Bull/bear cycle identification and statistical pattern analysis
- **FTD/DD:** Institutional buying/selling pressure using O'Neil methodology

■ Analysis Recommendations:

- Review each component for comprehensive market understanding
- Cross-validate signals across multiple indicators
- Consider timeframe consistency in decision making
- Monitor signal clustering for increased reliability

■ Technical Notes:

- All charts use consistent data sources and timeframes
- Individual component reports available for detailed analysis
- Signal parameters follow established market timing methodologies
